Yoga is about knowing the mechanics of life and its source. An opportunity for humanity to seek their immediate and ultimate wellbeing beyond the fickleness of the marketplace and the dogmatic divide of the religions. The word Yoga literally means Union, knowing and experiencing oneself in tune with the rhythm of Ultimate Phenomenon.

As human intellect evolves, yoga is a natural refuge for humanity in pursuit of its wellbeing. Though Yoga has its origin in Adi Yoga of an antiquity of many millennia, it is the Science for the future.

Yoga is a science of “Union / Self Integration”. Only a self-integrated person can remain completely happy and healthy at the physical, psychological, social and spiritual level. Universal Brotherhood, peace, harmony etc. can be achieved only if the people are “totally healthy”. Yoga can make this dream come true. Let us utilize this science of life for the upliftment of mankind as a whole.
